

## **CUR Mathematics and Computer Science Division 2019 Faculty Mentoring Awards Information**

The Mathematics and Computer Science Division of CUR is pleased to announce three awards to honor Mathematics, Statistics, and Computer Science mentors for their success in mentoring undergraduate students in research. Faculty mentoring interdisciplinary projects are encouraged to apply as long as those projects involve a major mathematics, statistics, or computer science component.

Typically, one award will be made in each of the three categories below, but in the case of exceptional applications more than one of the awards may be given in the same category.

Early Career: Faculty who are 0-7 years past their Ph.D.

Mid Career: Faculty who are 7-15 years past their Ph.D.

Advanced Career: Faculty who are 15+ years past their Ph.D.

By **March 31, 2019** applicants should

- fill out a short online cover sheet at <https://goo.gl/forms/1aU2z2Girhjuopoq2>
- send one email to Allison Henrich, [henricha@seattleu.edu](mailto:henricha@seattleu.edu) with all of the application materials (including a letter from a colleague and two letters from students) attached.
- use the subject CUR Math/CS Faculty Award Application – Early Career, CUR Math/CS Faculty Award Application – Mid Career or CUR Math/CS Faculty Award Application – Advanced Career depending upon the award you applying for.

### **Application materials**

1. **Applicant Letter:** The mentor will provide an explanation of their cumulative mentoring activities involving undergraduate research students. The letter should clearly link to the Evaluation Criteria Sheet and should include a brief discussion of the applicant's mentoring goals and/or philosophy. (Two page limit).
2. **Curriculum vitae:** List only details relevant to applying for the award including brief bio info for applicant (e.g., contact and education info), names of undergraduate students mentored, presentations by these students, publications by these students, awards received, etc. , see Evaluation Criteria Sheet (Two page limit).
3. **Letter from a Colleague:** A recommendation letter from a colleague of the applicant who can address the applicant's mentoring of students in undergraduate research (two page limit).
4. **Letters from Students:** Two recommendation letters from students who were mentored by the applicant. One such letter must be from a student who was mentored by the applicant within the past five years (One page limit for each letter).

The CUR Mathematics and Computer Science Councilors will review the completed applications will determine the award winners. The winning mentors will be notified at the end of May. We look forward to reading your applications and learning about the experiences and successes undergraduate students are having in undergraduate research.
